

Details about the phase 3 markups

Any (besides receipt):

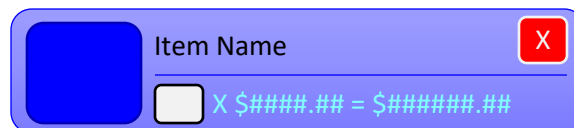

- The cart icon displays the number of items in the cart on the left side of it
- The cart icon is either
 - o EDGE_Online_Empty_Cart.png if there are no items in the cart. It has no interactions in this state, meaning it cannot link to the cart page.
 - o EDGE_Online_Cart.png if there are items in the cart. It links to the cart page.
 - o EDGE_Online_Active_Cart.png if the current page is the cart page. It has no interactions.
- The correct page title is displayed in the page tab.

Catalog Page:

- The rating variable is displayed as a float of form “#.##”
- The Price of the item is displayed.
- The Add button is either
 - o A green ‘Add’ by default. The button has interactions only in this state.
 - o A Light Green ‘In Cart’ if the item is in the cart. The Quantity box is removed for this.
 - o A grey ‘Out of Stock’ if the stock is zero. The Quantity box is removed for this case.
 - o A grey ‘Max ###’ if the quantity box is greater than the stock.
- Whenever an item is added to the cart, the button becomes ‘In Cart’.

Cart Page:

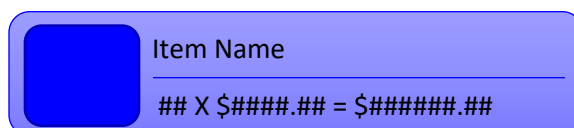

- The design of the cart items have been adjusted to the following format

- The Item Totals are now shown for each item
- Item images, item cards, and item price containers are fixed in size.
- The Remove (Red X) button removes that item in the cart, no matter what quantity it is at. The quantity is adjusted by the corresponding input box. The remove button does not affect quantity box.
- The quantity is fixed between 1 and the number in stock.
- The Checkout and Remove All Buttons are non-interactable if there are no items in the cart.

Checkout Page:

- The design of the checkout items have been adjusted to the following format

- Item images, item cards, and item price containers are fixed in size.
- Item totals are shown on each item card.
- Each of the input boxes are of the correct lengths and follows the formatting as in the structure reference.
